

# MAC CORN

*Nutrition for each age and each  
one's activity*

## **MAC'CORN – YOUR LONGTERM BUSINESS PARTNER**

### **Who are we?**

The quality of our products is a result of over 20 years of passionate work of our nutritionists - all this to offer you the best for your breakfast, coffee break... or anytime you need a snack. Our experience on the market of cereals, instant drinks and food products for babies provides us with a perfect knowledge of the commercial chain. We are able to meet the most specific requirements, such as: gluten free, lactose free, organic, no sugar, no salt, no palm oil, and others.

### **MacCorn - over the years of activity**

Since the launch in 1998 we have been consistently bringing to perfection the flavour of the whole range of breakfast cereals. What is more we are constantly working to create even more innovative products while remaining always concerned about the health and balance of everyone.

Soon we realized that we can make our receipts more nutritious without losing nor the quality of the product, nor its flavour.

### **Our experience in management of the production chain**

Thanks to the reactivity of the logistic department we can always be sure that the orders will be delivered without perturbation all year long - in strict compliance with timeliness. The choice of ingredients, process of production, packaging, delivery policy, marketing and certifications we received - on all these fields MacCorn is always keeping an eye open for details. In one word - the engine of our success is a strong relation carefully developed with each of our business partners. Our company meets all European standards and has all the necessary certifications to assure your confidence.

### **The future we think about**

It is our ambition and aim to be able to provide a customized product adopted to energetic needs of our clients. We are proud to be supporting each generation and respecting the ethic and environmental standards. Our guarantee is to provide the offer, at best prices, to help you in building your trademark and in developing your markets.

Our motto is **MAC'CORN - YOUR LONGTERM BUSINESS PARTNER**

## MAC'CORN, THE RESPONSIBLE COMPANY

Since the creation, **MAC'CORN** is deeply interested in health and protection of the environment. Our goal is to prepare our products taking strictly into account the requirements of the European law in the field of: lack of ingredients containing genetically modified organisms, compliance with the minimum content of pesticides, lack of ionizing radiation, and others. Aware of the challenges ahead, **Mac'Corn** has invested in the research enabling removal of the palm oil from the recipes. With the help of our laboratories, we have created a revolutionary formula replacing palm oil with canola oil that is rich in Omega 9 and contains mono-saturated molecules, therefore it helps in the renewal of body cells.

Our commitment is to provide you with natural products in obedience with **HEALTH** and **ENVIRONMENT**.

In fact, the palm oil, which is the most commonly used oil in the world, causes massive deforestation. As we care about preserving our environment for future generations, we opted for the use of canola oil in the majority of our recipes and during the production process.

What is more, during the packaging, the ink we use is not harmful to health and we prefer simple packaging, without overpacks.

Taking into account all these aspects, we believe we are doing our best for **RESPECTING ENVIRONMENT AND PEOPLE** all around us ... This respect becomes the best indicator of **QUALITY and SUSTAINABILITY**.

## THE KNOWLEDGE OF THE RIGHT FLAVOUR, FROM THE EARLIEST YEARS

### Gaining balance step by step

It is commonly known, that the baby nutrition is crucial for their proper growth. **Mac'Corn** has studied the recipes carefully, adapting them to the needs of toddlers, not only the psychological and nutritional needs, but also with respect for the taste and texture.

### Little pots for toddlers

Containing no gluten, GMO, lactose, artificial colorants, nor preservatives, our little jars for toddlers are the perfect healthy and allergens-free meals. **With no added sugar nor salt**, little **LINO**U and **MAC'CORN** jars allow your baby to enjoy the **true flavour** of vegetables, cereals and fruit while making first steps in dietary diversification. What is more, these products contain natural fibers and saccharose.

### Milk for toddlers

The breast milk remains the best meal for babies. However we would like to recommend our range of baby milks in the cases if breast milk is not sufficient and toddler needs additional feeding. Our recipes are the effect of careful studies of healthy diet for infants, which makes them the perfect source of minerals, vitamins and amino acids and keeps them free of GMO, gluten, sugar and allergens. Therefore, they preserve 24 months before opening. We have developed specially adapted formulas to recognize the needs of a child during three stages of growth: from birth to 4 months, 5 to 12 months and 1-4 years.

Our offer includes also specially prepared recipes, like:

- Lactose free formula;
- Formula Good Night anti-reflux;
- Health Plus formula enriched with DHA, AA and prebiotics.

### Instant teas for mothers and babies

To meet expectations of mothers worrying what drink should they give their little babies, how to relieve colic, how to help them fall asleep, how to hydrate in a sufficient way during extreme heat or diarrhea, we have developed numerous solutions. We would like to offer range of 6 instant teas, delicious and providing comfort for babies from age of 1 month.

We are also concerned about the pregnant and nursing mothers and their special needs of nutritional supplements to maintain balanced diet - we offer them two teas particularly prepared for their state.

ENERGY**

## ENERGY ESSENTIAL TO GROW UP

We have developed numerous product lines which are available in local stores as well as supermarkets and adapted to children of all ages: **MAGIC CORN** from 3 years, **CEBON** for older and **FORTY KID ENERGY** for teenagers.

**MAC'CORN** is flexible to meet everyone's needs: our cereals ready to eat, in family packages of 1kg, or in 375g packet, are ideal choice for family breakfast. Rich in vitamins and minerals, our products provide you the best start of your active day.

Our wide range of products allows everyone to have the favorite type of cereals. In the meantime we take into consideration different tastes and nutritional needs, each of our product is source of vitamins and minerals, high in fiber, cholesterol free, GMO free, gluten free, and others.

Always innovative - our recipes already include condensed milk, so there is no need to add milk and as a result children taste it without even realizing it! Clever...

Always more playful - we offer letters-shaped cereals, what can be funnier for a child than to show his parents that he knows the letters, or form his name... all this while having a meal!

## ALWAYS MORE ACTIVE!

### RICH IN FIBER

Why do we need fiber?

A high content of fiber protects the body from gastrointestinal disorders, reduces the risk of colon cancer, obesity, heart disease, helps to reduce dangerous levels of cholesterol (LDL) in the blood, reduces blood pressure, prevents constipation. A diet high in fiber increases the feeling of satiety and leads to the consumption of smaller portions. Whole grains, especially muesli, oats also fruits and vegetables are rich in fiber.

### BENEFIT OF OATS

Oats contain a particularly high proportion of fibers with a balanced ratio of soluble and insoluble fiber. Insoluble fiber improves digestion and fight effectively against disorders of gastrointestinal tract, including severe constipation and colon cancer, whereas soluble fiber (beta-glucans) reduce the level of cholesterol in the blood and protects the heart.

Eating oatmeal helps to reduce the level of sugar in blood and prevents or limits diabetes. It helps to fight against obesity because it reduces hunger, by inducing a lasting feeling of satiety and regulating digestion. Compared to other grains, oats have a higher content of amino acids, vitamins (B and E), minerals and dietary minerals - mainly iron, magnesium, calcium and zinc.

### OUR CRUNCHY MUESLI

To help you diversify the breakfast, we offer a wide range of crunchy muesli: chocolate, strawberry, fruit, apple, orange, banana and caramel, and others.

We are keen to adapt the existing recipes according to your requirements or develop new ones!

We offer them in bags or boxes of 375 g and 1 kg bags.

## READY AND GO

### WELLBEING EVERY DAY

#### Mix of the great taste and balance

The best way to start a day is to have our flaky muesli for breakfast. Rich in grain, containing no gluten - this makes a perfectly balanced, natural and tasty meal. We prepare delicious mixes of complete cereals, fruits and nuts, providing at once a complete set of grain and vitamins, to keep you full of the energy till lunch time.

#### Chase the bad cholesterol

Don't miss the chance to try **READY AND GO**, delicious and creamy mixture of oat flakes and fruits. Our range of instant porridge includes 5 flavours: raspberry, blackcurrant, strawberry, apple with cinnamon, cherry. Feel free to choose your favorite!

#### And the allergens...

**MAC'CORN** is concerned about all those who want to indulge like everyone else, while respecting the diet they have to follow: gluten free, lactose free, no sugar...

We offer complete range of products meeting these requirements - each one more tasty than the other: cornflakes, vanilla and chocolate balls, chocolate curls, chocolate granola bars, strawberry and yogurt granola bars, and many others...

Do not hesitate to discover them!

Gluten free

Sugar free

Lactose free

## SNACKING AND ENERGY

We are aware of the latest trends ruling eating habits - we eat more and more frequently outside the home, which results in the constant grow of ready-to-eat snacks. While developing a range of products to meet this demand, **MAC'CORN** is always mindful to take into account requirements of a balanced diet.

The late afternoon, after the school, the snack becomes an ideal moment to relax among your colleagues or siblings. Our suggestion for this small afternoon meal would be **FORTY KID ENERGY**, made of cereals, served in 30g packets. It covers 10-15% of nutrition and energy needs and also helps your children to stay attentive during class till the end of the day.

If you need a moment of relax in the office, we offer you **FORTY FORME**, served in 30g packets. It tastes great itself, as well as with yogurt or glass of warm milk. You can also choose one of our tasty granola bars (chocolate, strawberry and yogurt, pear, hazelnut, fruit juice).

No more junk food snacks when you are a bit peckish!

**INSTANT**

## RELAXING ALTOGETHER

Conviviality is the key word which describes spending quality time among your friends and family, no matter of the age nor the type of activity. We have developed a range of instant beverages, ready in a flash! Different types of infusions, teas and fruit teas, instant and lyophilized coffee.

Our instant and lyophilized coffees, 100% natural, are produced from the finest coffee beans while maintaining their rich aroma and flavour of roasted coffee. Add water or milk, hot or cold, and enjoy!

Always concerned about the well-being, we have prepared wide range of infusions and instant teas that enable you discovering the finest taste you were expecting from plants, flowers and fruits. No artificial flavours, preservatives, dyes, gluten nor GMO - these products will meet each one's expectations.

Our infusions and instant teas are immediately ready after adding hot or cool water - as you prefer!

"Nutrition for each age and each one's activity"

"Great taste and balance for everyone, everywhere and at all times!"
